## Contact

### Phone

9030606609

### Email

shanmukavenishetty@gmail.com

### Address

Hyderabad, India

## Technical skills

### Programming languages:

C(intermediate)

Java(intermediate)

python(basic)

### Web Technologies:

HTML, CSS

### Database & Backend:

SQL

### Design :

web-design(Figma)

Graphic-design(canva, adobe ai)

## Education

### B.tech in Computer Science

#### CMR Technical Campus

2023-2027

### intermediate

#### Resonance junior college

2021-2023

## PROFILE

I am a second-year Computer Science student with a strong foundation in Python, Java, and C, along with experience in SQL for database management. I have built skills in front-end development (Html, Css, JavaScript) and graphic design using Figma, enabling me to create visually appealing and functional user interfaces.

Currently, I am exploring cybersecurity and blockchain technologies to expand my expertise in emerging fields. Passionate about problem-solving and innovation, I stay up-to-date with the latest tech trends and constantly seek new challenges to grow and improve.

## Projects

### Resume Creator (HTML, CSS, JavaScript)

Developed a Resume Creator using HTML, CSS, and JavaScript, enabling users to input details and generate a well-formatted resume dynamically with live preview and PDF export functionality.

### Hospital management system (Java)

Developed a Hospital Management System, optimizing patient records, appointment scheduling, and staff management with an efficient and user-friendly interface.

### Image Resizer pro (Python)

Built an Image Resizer Pro in Python, allowing users to resize images efficiently with support for bulk resizing, custom dimensions, and format conversion using PIL (Pillow) and OpenCV.

## Achievements

### Certificate

SMART INDIA HACKATHON 2024

Certificate of Virtual Internship AWS
